Gestational Diabetes: Current Knowledge and Therapeutic Prospects

Message from the Guest Editor

Although gestational diabetes is a well known and widely treated topic, the knowledge of the various aspects of this pathology is always enriched with new details. Therefore, deepening the latest developments in the various related fields, such as screening, diagnosis, perinatal outcome, possibilities of prevention and treatment, and follow-up information, is always useful for maintaining an updated knowledge of this pathology. This Special Issue aims to provide a comprehensive review on this topic by collecting papers from an expert panel of authors.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
