Neuroendocrine Tumors: Clinical Challenges

Message from the Guest Editor

Although increasing in incidence and prevalence, neuroendocrine tumors (NETs) remain rare and complex diseases with heterogeneous biology and clinical behavior, requiring multidisciplinary team management. Knowledge of these diseases has significantly increased in recent decades, thanks to improvements in the diagnostic accuracy of cross-sectional imaging procedures; the evolution of nuclear medicine techniques; and the development of promising therapeutic approaches that have been shown to positively impact disease clinical outcome and patients' quality of life. The present Special Issue aims at investigating the "gray areas" that still remain in the clinical management of NETs, focusing on the unmet need that physicians dealing with these diseases may face during diagnostic work-up and therapeutic strategy setting up.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
