Advances on Neurogastroenterology and Motility Disorders: Pathophysiology, Diagnostics and Management

Message from the Guest Editors

We are delighted to announce the opening of the "*Advances on Neurogastroenterology and Motility disorders: Physiology, Diagnostics and Management*" Special Issue. In the last decade, we have witnessed important advancements in the field of neurogastroenterology, particularly in diagnostics such as the introduction of high-resolution esophageal and anorectal manometry, EndoFlip, pH monitoring with impedance, improvements in barium swallows methodology, MR proctography, motility capsules and other diagnostic tools. The improved diagnostic capability has improved our understanding of the diseases and therefore altered therapeutic approaches. This Special Issue focuses on recent advances on the diagnosis and management of various gastrointestinal disorders such as achalasia, GERD, gastroparesis, functional dyspepsia, IBS, abdominal bloating, constipation and fecal incontinence.

Guest Editors

Dr. Amir Mari

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
