Neurorehabilitation: Progress and Challenges

Message from the Guest Editors

Movement disorders caused by neurological diseases, such as stroke, Parkinson's disease, and degenerative spinocerebellar ataxia, can cause significant limitations in daily living. Neurorehabilitation is provided to reduce the burden associated with movement disorders, lessen the limitations in daily living activities, and enhance participation in the social sphere. To achieve progress in neurorehabilitation approaches, it is necessary to investigate the mechanisms of movement disorders, pathological hypotheses, and new intervention studies. For this Special Issue, we welcome research on a wide range of topics, including basic research that contributes to the elucidation of movement disorders, measurement technology to evaluate these disorders, new interventional research using neuromodulation techniques, and clinical research combining regenerative medicine and physiotherapy. We also welcome narrative analyses of single cases, systematic reviews, and meta-analyses regarding neurorehabilitation.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France
