New Frontiers in Head and Neck Oncology: Treatment and Reconstruction

Message from the Guest Editors

Head and neck oncology is concerned with the diagnosis and treatment of a broad field of tumors arising from the head and neck region. This diversity requires a comprehensive knowledge regarding differing malignancies and their distinct tumor biology, the thereby necessary treatment options and the need of elective or adjuvant therapy as well. In the pursuit of best oncological outcome, functional and aesthetic outcomes have to be more considered than in any other surgical oncological discipline. Head and neck surgeons are therefore constantly challenged to further improve oncological outcome with the best functional and aesthetic results at the same time. Hence, the upcoming Special Issue has three main goals: I) the description of reconstructive techniques after ablative head and neck surgeries focusing on surgical oncological as well as functional outcome; and the discussion of the benefit or harm of II) elective and III) adjuvant treatment.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
