

## Special Issue

# Oral and Maxillofacial Surgery: Current Updates and Perspectives

### Message from the Guest Editor

In recent years, the field of oral and maxillofacial surgery (OMFS) has witnessed remarkable advancements, revolutionizing both medical and dental practices. This discipline encompasses the comprehensive diagnosis and treatment of conditions affecting the structures of the oral and maxillofacial regions, addressing both functional restoration and aesthetic enhancement.

From innovative diagnostic approaches to pioneering therapeutic methods, clinicians and researchers have improved the quality of life of patients. Moreover, the collaborative efforts between oral surgery, maxillofacial surgery, and oral medicine have assumed paramount importance in optimizing patient care to solve the problems of the oro-maxillary district. The pursuit of excellence in therapeutic–diagnostic approaches demands unwavering dedication from both researchers and healthcare professionals.

In light of these remarkable developments, the focus of this new Special Issue is to continue the work carried out in the previous "Breakthroughs in Oral and Maxillofacial Surgery" and encourage and stimulate contributions from qualified and esteemed colleagues across the globe.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
