

Special Issue

Advanced Hysteroscopic Technology for Gynecological Disease

Message from the Guest Editors

The progress seen in hysteroscopy in the gynecology field is remarkable. More and more pathologies can be diagnosed and treated with the use of hysteroscopy. Furthermore, the instrumental advancement and the improvement of its effectiveness have made hysteroscopy a fundamental tool for treating the majority of endometrial and uterine pathologies. For this reason, with this Special Issue, we want to focus on the recent development of hysteroscopy in the technological fields and also in the diagnostics and therapeutic management of different uterine pathologies (endometrial pathologies, leiomyomas, isthmocele, uterine septum, ectopic pregnancies, oncological pathologies, endocervical pathologies). Invited topics are:

- New technologies in hysteroscopy.
- Advances in the diagnosis of uterine pathologies.
- Advances in the treatment of uterine pathologies.
- Outcomes after hysteroscopic surgery.
- New preoperative therapies.
- New methods for pain reduction during outpatient hysteroscopy.
- New diagnostic and prognostic biomarkers following endometrial biopsy.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
