

## Special Issue

# Periodontal and Other Associated Oral Diseases: Diagnosis and Management in the Context of Systemic Pathology

### Message from the Guest Editors

Oral diseases, such as periodontal and peri-implant diseases, dental caries, medication-related osteonecrosis of the jaw, oral leukoplakia, cancer, oral lichen planus, and other auto-immune diseases, that have manifestations in the oral cavity cause major health and social issues. In addition to the affected function, esthetics, and quality of life that these pathologies induce, there is also the significant economic burden that one must consider. Diagnosis for these pathologies can be difficult to navigate; however, recent developments in medicine (such as, but not limited to, improved radiological and non-invasive techniques, chair-side tests, biological, immunological and paraclinical tests) have expanded the knowledge base of these diseases.

We cordially invite researchers to submit either original research or reviews in the areas including, but not limited to, oral diseases diagnosis and treatment, theoretical and clinical studies on new and established diagnostic methods, treatment effectiveness evaluation, systemic diseases and medication effects on the oral cavity, and new clinical treatment procedures and protocols.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
