

## Special Issue

# Current Therapeutic Approaches to Addictive Disorders

### Message from the Guest Editor

Addictive disorders represent complex and multifaceted diseases that continue to impact individuals and communities worldwide. Each person's experience with addiction is unique, influenced by factors such as co-occurring mental illnesses, trauma, genetics, and social environments. As a result, professionals in the field employ a range of evidence-based approaches to address the diverse needs of those affected. This Special Issue focuses on the rapidly evolving landscape of addiction treatment, encompassing behavioral, pharmacological, and genetic therapeutic strategies. Recent advancements in artificial intelligence and innovative therapeutic technologies are transforming the way clinicians understand and treat addiction, enabling more precise and personalized interventions. We invite authors to contribute original research articles and reviews that highlight emerging therapeutic approaches for addictive disorders.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
