

Special Issue

Recent Advances in the Management of Fractures

Message from the Guest Editors

This Special Issue aims to provide an in-depth exploration of the latest advancements in fracture management. It will cover innovative surgical techniques, advanced diagnostic imaging methods, and the application of novel biomaterials for bone repair. Our objective is to offer a comprehensive overview of state-of-the-art approaches that are revolutionizing outcomes for orthopedic patients. We invite submissions of manuscripts that present cutting-edge research and clinical trials offering fresh perspectives on fracture treatment and rehabilitation.
