

## Special Issue

# Oncogenic Human Papillomaviruses

### Message from the Guest Editors

We welcome the submission of research and review articles on the molecular mechanisms contributing to HPV-induced carcinogenesis to bring together expert opinion and new advances from across the field in a Special Issue. We welcome proposals covering any relevant clinical or translational topics, including epidemiology, immune responses, viral oncogenes in cell transformation, virus and host mutational profiles, methylation, miRNA expression profiles, and new therapies including vaccines against HPVs that are related to tumor pathologies of different anatomic localization (i.e., anogenital, oropharyngeal, cutaneous, conjunctival, and other localizations).

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
