## Special Issue

## Orthopedic Diseases and Traumatology: Surgical Treatment and Rehabilitation

### Message from the Guest Editor

The surgical therapy of orthopaedic diseases and injuries is subject to permanent change. The development of new techniques and the establishment of patient-friendly, often minimally invasive procedures have changed many treatment algorithms. Great clinical success is being achieved in increasingly targeted, individualised therapy approaches. Moreover, postoperative treatment and rehabilitation are undergoing iust as great a change. Due to the growing awareness of evidence-based post-operative treatments, long offloading phases and functional impairments are increasingly giving way to early functional therapy, reducing treatment times and minimizing socioeconomic costs. The aim of this Special Issue is to provide a comprehensive overview of the latest developments and improvements in surgical therapy for orthopaedic diseases and their rehabilitation. Therefore, researchers in the field of orthepaedic surgery and rehabilitation are encouraged to submit their findings as original articles, reviews or case reports to this Special Issue.

### **About the Journal**

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### **Editors-in-Chief**

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of Tokyo, Tokyo, Japan

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
