

Special Issue

10th Anniversary of JCM— Latest Advances in the Field of Otolaryngology Head and Neck Surgery

Message from the Guest Editor

This is a special issue entitled latest advances in the field of Otolaryngology Head and Neck Surgery. This special issue coincides with the 10th anniversary of the JCM. The last decade has seen an explosion of research and knowledge in multiple areas in Otolaryngology. The areas of interest include Human Papillomavirus associated cancers, robotic surgery, immunotherapy for head and neck cancer, biologics in chronic rhinosinusitis, cochlear implants to restore hearing, 3D printing, treatments for tinnitus, and latest treatments in sleep apnea. We are accepting the following submissions: comprehensive Reviews, Observational Cohort study, Cross-sectional study, case control study, basic science research reporting the latest experimental and clinical translation research progress from your research group.

Guest Editor

Dr. Eng Ooi

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
