

Special Issue

Musculoskeletal Disorders: Clinical Diagnosis, Treatment and Rehabilitation

Message from the Guest Editors

This Special Issue, "Musculoskeletal Disorders: Clinical Diagnosis, Treatment and Rehabilitation", aims to highlight advancements in the assessment and management of MSDs. A particular focus will be given to approaches that integrate functional and biomechanical analysis into clinical practice, providing an in-depth understanding of patient functionality and physical limitations. Contributions are welcome from randomized controlled trials evaluating rehabilitation programs combined with various techniques, whether pharmacological, conservative, minimally invasive, or based on therapeutic exercise. Additionally, studies addressing the impact of these interventions on patient-reported outcomes, such as quality of life and functional recovery, are highly encouraged. We invite researchers, clinicians, and healthcare professionals to submit original research, systematic reviews, and meta-analyses that advance the understanding and management of musculoskeletal disorders.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
