

Special Issue

Innovative Aspects in Dental Implantology and Related Clinical Research

Message from the Guest Editors

Modern dentistry is characterized by an impressive development of new technologies and techniques, especially in the subjects of implantology, bone regeneration, and implant-supported prosthesis. At the same time, however, patients are often asking for less-invasive procedures and less complex rehabilitation treatments. Moreover, the development of digital technologies has drastically changed dentistry, and in particular the fields of prosthodontics and implantology. The goal of this Special Issue is to provide an update of the current knowledge in implant dentistry and in implant-supported prosthesis. It aims to show the most recent achievements in the field of implant-prosthetic rehabilitation, in order to obtain a complete view of the state of the art of new trends in this area. This Special Issue calls for high-quality research articles, clinical studies, and review articles focused on implantology and implant-supported prosthesis.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
