

## Special Issue

# Clinical Advancements in Urologic Surgery

### Message from the Guest Editor

Urological surgery is one of the most complex and multifaceted branches in the global surgical landscape. In fact, the urologic discipline deals with both benign diseases such as benign prostatic hyperplasia, urinary incontinence, andrology, and urinary lithiasis that often require increasingly minimally invasive surgical treatment, as well as oncologic diseases of the urinary tract in which robotic surgery is constantly and steadily growing from 3D platforms to single-port robots. In addition, artificial intelligence is making its mark in preoperative study, thanks to which surgeons are aided in the recognition of the structures and lesions to be removed. Still, it is possible for the technology applied to urology to help in the diagnosis and treatment of diseases whose pathogenesis and therapeutic indications remain unclear, such as in the field of neurourology. The purpose of this Special Issue is to investigate the technological advances that can be applied to urological surgery.

### Guest Editor

Dr. Francesco Trama

Urology Complex Unit, ASL Napoli 2 Nord 'Santa Maria delle Grazie' Hospital, 80078 Pozzuoli, Italy

### Deadline for manuscript submissions

closed (30 May 2025)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
