

# Special Issue

## Nordic Neurology

### Message from the Guest Editor

In recent decades, clinical neurology and neuroscience have witnessed both marvelous advances and frustrating disappointments despite best efforts. The prognosis of some disorders has turned from dismal to (nearly) curable, whereas some diseases still lack treatment. This research theme covers a wide range of disorders affecting the nervous system, ranging from acute (strokes, traumatic brain injuries, etc.) to chronic (rare diseases, neurodegenerative disorders, etc.), as well as those in between (e.g., functional neurological disorders). This Special Issue aims to gather research that elucidates the current epidemiological landscapes, clinical pictures, pathological and genetic correlates, as well as treatment pathways and their outcomes in the Nordic region. We welcome original articles, reviews, and other acceptable types of articles. We encourage authors to provide insights into the development status and research fronts of neurology, neuroepidemiology, and clinical neuroscience. We also welcome all suggestions of possible other authors for this theme issue.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
