

## Special Issue

# Advances in Heart Valve Disease

### Message from the Guest Editor

With an ageing population, valvular heart disease (VHD) is a growing global burden. Transcatheter treatment options have emerged in the past two decades and have brought about a paradigm shift in the treatment of VHD, in particular for aortic valve disease. We have inaugurated a Special Issue that focuses on recent advances in the field of transcatheter aortic valve implantation and how those advances translate into contemporary clinical practice. To this end, we would like to invite state-of-the-art reviews, editorials, and original research in this area for inclusion in this Special Issue. We look forward to your submissions!

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
