

Special Issue

Novel Insights into Colorectal Surgery

Message from the Guest Editor

This Special Issue highlights recent advancements and cutting-edge innovations in colorectal surgery, focusing on techniques that improve patient outcomes and surgical precision. Explores novel surgical approaches, emphasizing the shift toward minimally invasive techniques, including laparoscopic and robotic-assisted surgeries. These methods offer reduced recovery times, fewer complications, and enhanced cosmetic results without compromising oncological safety. This Special Issue also delves into the role of neoadjuvant therapies in enhancing surgical outcomes, discussing how preoperative chemotherapy and radiation can improve resectability and reduce recurrence rates. We explore the growing use of personalized medicine, particularly in utilizing genomic profiling to guide treatment plans and predict patient responses to therapy. By providing a comprehensive overview of recent innovations, this Special Issue offers essential insights for clinicians and healthcare professionals dedicated to advancing the field of colorectal surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
