Clinical Updates in Fractures: Orthopedics, Trauma Surgery, and Rehabilitation

Message from the Guest Editor

Orthopedic Surgery is changing quickly with new Techniques, Robotics, and Artificial Intelligence. Disease entities remain as traumatic and degenerative conditions that require repair or reconstruction. Economically challenged societies are increasingly adopting modern implants and diagnostic tools, while also developing low-cost and low-tech solutions to address their own complex problems. The battle between individual technical expertise and modern technology to solve problems rages on. Meta-analyses and systematic reviews are obsolete due to Artificial Intelligence and platforms like Chat GPT, Open Evidence, and other sources that can provide reliable up-to-date information in seconds without reading journal articles. This special edition will focus on new strategies and techniques, low and high-cost, reliable and relevant outcome measures, "outreach" to underserved communities and countries, and "inreach" to our own local underprivileged or underserved populations for orthopedic care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
