

## Special Issue

# New Insights into Cardiothoracic Surgery

### Message from the Guest Editors

This Special Issue focus on fresh and innovative approaches to the core conditions treated by contemporary cardiothoracic surgeons. Lung cancer remains without doubt the leading cause of cancer-related mortality, and coronary artery disease is still the number one killer in the developed world. Although the foundations for the surgical treatment of coronary artery disease and lung cancer have not fundamentally changed in decades, newer perspectives may aid in our understanding of these conditions and the impacts of therapy. We are seeking manuscript submissions that provide a “new view” to these “old problems”, highlighting novel considerations for coronary artery bypass and lung cancer resection. In this Special Issue of the *Journal of Clinical Medicine*, “New Insights into Cardiothoracic Surgery”, we plan to present works for a broad audience. Rather than focusing exclusively on surgical techniques, it is our goal to help bridge the gap between medical and surgical therapies, and provide a method that will improve our collective understanding of these enduring yet challenging diseases.

### Guest Editors

Dr. Jared L. Antevil

Department of Cardiothoracic Surgery, Veteran Affairs Medical Center,  
Washington, DC, USA

Dr. Gregory D. Trachiotis

Department of Medicine, School of Medicine, Uniformed Services  
University, Washington, DC, USA

### Deadline for manuscript submissions

closed (30 March 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
