

## Special Issue

# Latest Advances in Paravalvular Leak

### Message from the Guest Editors

Paravalvular leak (PVL) is a common complication associated with surgical valve replacement and more recently transcatheter valve implantation procedures. Early recognition and intervention are imperative for appropriate management, as medical therapy is not effective. The results of systematic review and meta-analysis suggest that successful trans-catheter PVL reduction is associated with a decrease in cardiac mortality and functional class improvement in patients unsuitable for surgical correction. A surprising number of different devices, vascular plugs, and more recently newly dedicated devices have been used to close aortic or mitral paravalvular leaks. Nevertheless, transcatheter interventions have followed a difficult path of development. The difficulties have been mostly linked to technical issues, such as visualization of the defect and suboptimal delivery systems. The Special Issue will summarize the most relevant data on the clinical, diagnostic, and technical aspects of PVL treatment and will point out to its limitations and future development.

### Guest Editors

Prof. Dr. Eustaquio Maria Onorato  
Prof. Dr. Grzegorz Smolka  
Prof. Dr. Wojtek Wojakowski

### Deadline for manuscript submissions

closed (20 March 2023)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
