

## Special Issue

# Patient Blood Management in Critical Care Medicine

### Message from the Guest Editor

Nowadays, there is increasing evidence that acute anemia per se is an isolated risk factor for increased morbidity and mortality. In this situation, for many years, transfusion of foreign blood was the de facto standard of care for ICU-associated anemia. In recent years, however, it has become increasingly apparent that the avoidance of anemia, blood loss, and transfusion is associated with an improvement in outcome. The measures necessary for this are summarized as "Patient Blood Management (PBM)". While in the field of perioperative medicine PBM has become an important therapeutic option in recent years, its use in the field of intensive care medicine is not yet as well established. The aim of this Special Issue is to explain the basics of PBM in the intensive care unit, to critically examine the individual measures against the background of critically ill patients, and to give tips for implementation in practice. In doing so, all three pillars of PBM are fully analyzed and the importance of the individual measures is placed in the perioperative context.

### Guest Editor

Prof. Dr. Jens Meier

Department of Anesthesiology and Critical Care Medicine, Kepler University Hospital GmbH and Johannes Kepler University, Linz, Austria

### Deadline for manuscript submissions

closed (20 June 2022)

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
