

Special Issue

Advances in Pediatric and Adult Cochlear Implant and Middle Ear Prostheses

Message from the Guest Editors

Cochlear implantation and middle ear prosthetic technologies have been developed during the last 20 years and have been implemented in numerous clinical settings around the world. The objective of this Special Issue is to share with the scientific community the latest trends in the cochlear implants field and related technological advances. We invite authors to send papers describing recent developments in (but not limited to) the following potential topics: **Ear Implantable Devices** *Middle ear* Piezoelectric (i.e., envoy); Electromagnetic (vibrant soundbridge; otologics carina); Bone conduction implants, percutaneous vs. transcutaneous (i.e BAHA, Oticon Ponto); *Inner ear* Cochlear implants; Cochlear implants with intracochlear drug delivery; Cochlear implants in inner ear malformations; Cochlear implants in the single side deafness; Cochlear implants and vestibular function; Hybrid cochlear implants; Factors which could affect hearing preservation in cochlear implants; Ecog in cochlear implantation; Cochlear implantation after radical modified surgery.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
