

Special Issue

Advances in the Diagnosis and Therapy of Pituitary Disorders

Message from the Guest Editor

The pituitary gland is a critical mediator of endocrine homeostasis. Pituitary pathology results in significant morbidity. This Special Issue will focus on recent advances in the understanding of congenital abnormalities that result in hypopituitarism, as well as acquired infectious and inflammatory lesions and a wide range of tumors that can also cause hormone excess syndromes. Experts in various fields will summarize the clinical, biochemical, radiologic, pathologic, and molecular features of various disease entities to provide the reader with a clear understanding of the spectrum of pituitary disorders. Advances in the understanding of the epidemiology of pituitary tumors, their nomenclature, and etiology will also be discussed. New and emerging therapies will be reviewed and innovations that are expected to enhance diagnosis and management of pituitary patients will be proposed for future studies.

Guest Editor

Prof. Dr. Sylvia L. Asa

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
