Practice and Research in Clinical Pharmacology

Message from the Collection Editors

Clinical pharmacology is a medical discipline whose main interest is to assess the benefit–risk balance of drug therapy at both population and individual levels in order to provide the best possible therapy to patients and to the right dose. Thus, it involves on one hand the scientific evaluation of drugs during clinical development (clinical trials and drug regulation) and clinical use (drug utilization, comparative effectiveness, pharmacovigilance, pharmacoconomics and drug policies). On the other hand, it is a medical discipline devoted to direct patient care through drug individualization (therapeutic drug monitoring, pharmacogenetics and system clinical pharmacology) and consultancy on drug-related problems (adverse drug reactions, interactions, drug toxicology, drug selection and individual benefit–risk assessment).

Journal of Clinical Medicine has given us the opportunity to show the scope of clinical pharmacology to a broad audience and the relevance of this discipline in clinical practice. Therefore, we are looking for outstanding original manuscripts

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
