

Special Issue

Spinal Microsurgery and Cervical Spine Surgery: Recent Developments and Emerging Trends

Message from the Guest Editor

I am proud to announce this Special Issue dealing with recent advances in cervical spine surgery and, more extensively, spinal microsurgery. New trends and developments have emerged for both preoperative/ intraoperative diagnosis and monitoring in neuroimaging, neurophysiology and the use and availability of intraoperative complex surgical tools. You are invited to provide an updated contribution for a modern definition of spinal surgery. From a simplified anatomic point of view, the skull base along with its offshoot, the spine, replicate a bone funnel as a vessel sustaining the brain, the cerebellum and the spinal cord along with cranial and radicular nerves. There is no doubt at all that knowledge of the embryology, anatomy, physiology, pathophysiology and more effective surgical pathways to engage and remove surgical diseases is of paramount importance in the surgical cultural heritage; its pursuit is thus strongly encouraged and supported amongst neurosurgeons.

Guest Editor

Prof. Dr. Massimiliano Visocchi

Institute of Neurosurgery, Fondazione Policlinico Universitario A. Gemelli IRCCS, Catholic University, Rome, Italy

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
