Carotid Artery Disease: Latest Update on Diagnosis and Management

Message from the Guest Editor

In recent years, novel knowledge on the pathogenesis of carotid artery stenosis has been increasing with the development of diagnostic imaging techniques such as plaque imaging. In addition to carotid endarterectomy and carotid artery stenting, new treatment options are being introduced. Although the degree of stenosis has been the most important indicator to determine eligibility for treatment, the morphology and vulnerability of the plaque are now also being taken into consideration. In this issue, we review recent advances in the pathogenesis, diagnosis, and treatment of carotid artery stenosis and provide an insight into future issues. We look forward to receiving your submissions to this Special Issue.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
