Clinical Management and Update of Aortic Dissection and Aortic Aneurysm Diseases

Message from the Guest Editor

Over the past few decades, significant progress has been made in the management of aortic dissection and aortic aneurysm; however, aortic disease still remains a high-mortality condition. We would like to invite you to contribute to this Special Issue with your novel insights. Research areas may include (but not limited to) the following: epidemiology and clinical outcomes of aortic aneurysm and aortic dissection, and medical, surgical, and endovascular approaches for these diseases. For this Special Issue, original research articles and reviews are welcome. I look forward to receiving your contributions. Please click [here](#) to find more information

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
