

Special Issue

Hip Surgery: Clinical Treatment and Management: 2nd Edition

Message from the Guest Editor

We are thrilled to announce the release of the second volume of our Special Issue, “Hip Surgery: Clinical Treatment and Management—Volume II”. As we all know, the management of hip disorders has seen tremendous advancement within the last few decades. Total hip replacement can be considered the most successful surgery of the previous century. We would like to cover the broad field of hip surgery, the diagnostical approaches to various hip disorders, and their specific management. In the first volume, we have included a diverse set of research articles covering the whole field of hip surgery. We hope to continue collecting innovative articles in this field. It is worth noting that this Special Issue is a continuation of the successful first volume. Fortunately, participation was high, with 11 manuscripts including original research and reviews. We invite you to visit our website to access the first volume of our Special Issue, which is available at the following

link: https://www.mdpi.com/journal/jcm/special_issues/5J20KY5Y76 Thank you for your continued support of our Special Issue. We look forward to your contributions to future volumes.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
