Clinical Advances in Assessment Measures and Theoretical Models of Caregivers' Sensitivity and Contingency

Message from the Guest Editor

Our latest Special Issue is on "Clinical Advances in Assessment Measures and Theoretical Models of Caregivers' Sensitivity and Contingency". We aim to showcase groundbreaking research in the field of clinical caregiving, emphasizing the importance of caregivers' sensitivity and responsiveness to their recipients' needs. Through novel assessment measures and innovative theoretical models, this Special Issue seeks to shed light on the crucial role caregivers play in promoting patients' overall well-being and mental health outcomes. Join us as we explore the latest advancements and improve our clinical understanding of caregivers' interactions and their profound impact on individuals' lives.
