

Special Issue

Autism Spectrum Disorder: Diagnosis, Treatment, and Management

Message from the Guest Editor

We are organizing a Special Issue on adult Autism, specifically focusing on the clinical pathway from pre-diagnosis, and referral to diagnostic and support approaches. Adult Autism, although long recognised, has gained increasing attention in recent years due to advancements in understanding and awareness. Areas of focus have included neuropsychology, biological markers, genetic markers, neuroanatomy, and neuroimaging, contributing to a deeper understanding of Autism across the lifespan. Regarding support approaches, various therapeutic models have been studied, ranging from pharmacological interventions to psychological and other supportive methods aimed at achieving a more comprehensive approach to care beyond traditional medication. This Special Issue is designed to collect articles focusing on new populations where Autism may be under-recognised, new diagnostic approaches, and innovative support and intervention strategies. It welcomes contributions from diverse disciplines that can add to this important discussion.

Guest Editor

Prof. Dr. Marios Adamou

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
