

Special Issue

Updates on Physiotherapy in Pain Management

Message from the Guest Editors

The Special Issue, "Updates on Physiotherapy in Pain Management", aims to address the critical challenges and evolving practices within the field of pain management through the lens of physiotherapy. As chronic pain conditions continue to rise globally, effective management strategies are vital for enhancing patient outcomes and improving quality of life. The scope of the Special Issue encompasses a wide range of topics, including original research and reviews that investigate the mechanisms of pain modulation, the role of physiotherapy in chronic pain syndromes, and the integration of multidisciplinary approaches. Topics of interest include emerging modalities in pain management and the effectiveness of personalized rehabilitation programs. By bringing together diverse perspectives and innovative research, we aspire to foster dialogue among healthcare professionals and researchers, ultimately contributing to the improvement of physiotherapy practices in pain management. We look forward to your valuable contributions that will drive the field forward and enhance patient care in this crucial area of health.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.
