

Special Issue

Advances in Scoliology, Diagnosis and Management of Scoliosis and Spinal Disorders: Part II

Message from the Guest Editors

It is our pleasure to invite you to contribute to the Special Issue entitled "Advances in Scoliology, Diagnosis and Management of Scoliosis and Spinal Disorders: Part II". This is a new volume; 22 papers were published in the first volume.

Scoliosis, a 3-D deformity of the spine and the thorax, mainly affects children, who are the future of any society. The advent of new technologies is key in the study and advancement of our insight into this disease, with the aim of improving the quality of life of this sensitive group of people. The ultimate goal is to diminish or even eliminate the disease.

Therefore, it is very important to increase awareness and advocacy for a social mission regarding the early detection of scoliosis and the prevention of progressive spinal deformity. It is imperative to raise awareness about scoliosis and to inform the public, healthcare and policy-making communities about the individual, familial and societal burdens of spinal deformity, as well as the benefits of proper detection, diagnosis and optimal care for all patients.

This Special Issue and its series of submitted papers aim to serve the above-mentioned objectives.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
