Special Issue

New Perspective of Oral and Maxillo-Facial Surgery

Message from the Guest Editors

Oral and maxillofacial surgery is undergoing a paradigm shift, driven by rapid advancements in artificial intelligence (AI), deep and machine learning, and next-generation surgical technologies. This Special Issue aims to showcase groundbreaking research and cutting-edge developments that are revolutionizing oral and maxillofacial surgery. Topics of interest include, but are not limited to:AI-Driven Innovations￭Advanced Surgical Technologies and Digital Workflows￭Minimally Invasive and Regenerative Approaches. This Special Issue encourages multidisciplinary collaborations between surgeons, bioengineers, data scientists, and computational researchers to bridge the gap between cutting-edge technology and clinical application. We welcome original research, systematic reviews, and clinical trials that focus on the translational impact of these innovations, aiming to redefine standards in patient care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès
Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi
Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
