

Special Issue

Advances in the Field of Cariology

Message from the Guest Editors

Dental caries remains one of the most prevalent and challenging oral diseases worldwide, exerting a substantial burden on both patients and healthcare systems. While preventive dentistry has progressed considerably, key challenges persist in achieving early, precise diagnosis and truly personalized, effective management—especially among high-risk populations. This Special Issue focuses on innovation in cariology, showcasing cutting-edge developments in diagnosis, prevention, and clinical management. We welcome original research, clinical trials, systematic reviews, and practice-based studies that explore novel diagnostic technologies, advanced biomaterials for minimally invasive dental treatment, AI-driven risk assessment, and transformative public health strategies for caries prevention and control. Our goal is to highlight forward-thinking, clinically relevant research that bridges science and practice—fostering new paradigms in patient-centered dental care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
