Latest Advances in Orthodontics

Message from the Guest Editor

Orthodontics is a postgraduate program that is continuously evolving. In recent years, significant progress has been made in the research field and in the clinical practice. A three-dimensional evaluation of the diagnostic process and digital treatment planning now occur daily in our orthodontic offices. Moreover, genetic studies have demonstrated the biological basis of some dental anomalies and cranio-facial deformities. These are only few topics growing very quickly in recent years. Being updated about the progress in orthodontics is essential to be well informed about diagnosis methods, treatment options, and research data. Thus, I think it is very important to publish all the research papers that are essential to explain all the aspects of studies, data, reviews, and results. I am very pleased to introduce to you this Special Issue on “Latest Advances in Orthodontics”. This Special Issue is a good opportunity to learn about the knowledge, results, and new updates on the orthodontic clinical practice and research. I invite you to submit your research papers at your earliest convenience to the Special Issue “Latest Advances in Orthodontics”.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
