

Special Issue

Recent Advances in Cardiovascular Imaging 2.0 Edition

Message from the Guest Editor

The field of cardiovascular imaging is evolving at an unprecedented pace. Over the last few years, we have seen significant advances across echocardiography, magnetic resonance imaging, computed tomography, and nuclear imaging. Much effort has been put into increasing safety for the patient, diagnostic accuracy, and decreasing the work burden for clinicians. With an increasing financial burden caused by multimodality imaging and further downstream testing, cost effectiveness for healthcare systems is becoming more and more important in the field of cardiovascular imaging. It is my honor and pleasure to invite you to contribute to this Special Issue on “Recent Advances in Cardiovascular Imaging 2.0 Edition”. The journal invites submissions on all imaging modalities that focus on diagnostic accuracy, risk prediction, cost effectiveness, and change of clinical practice based on cardiovascular imaging. Papers in the field of machine learning may be eligible for submission only if they have a dedicated clinical focus. We look forward to receiving your submissions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
