

Special Issue

Recent Advances in Obstetric Anesthesiology

Message from the Guest Editor

The Journal of Clinical Medicine (JCM) is supporting the publication of a Special Issue on “Recent Advances in Obstetric Anesthesiology”.

The Special Issue aims to provide up-to-date data by presenting research on the subspecialty of obstetric anesthesiology and to be a comprehensive aggregation of work performed by experts in the field, thus providing a valuable resource of knowledge for obstetric anesthesiologists worldwide. Special Issue encourages submissions on the current state of the art but also on ongoing controversies related to the practice of obstetric anesthesiology.

I would therefore kindly invite healthcare professionals and researchers involved in the care of obstetric patients to address relevant topics and submit original research articles, reviews, meta-analyses, or observational studies to JCM.

Guest Editor

Prof. Dr. Kassiani Theodoraki

Department of Anesthesiology, Aretaieion University Hospital, National and Kapodistrian University of Athens, 11528 Athens, Greece

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
