

## Special Issue

# One-Step Approaches for Regenerative Medicine—Rationale, Characterization, and Outcomes for the Use of Regenerative Medicine Products

### Message from the Guest Editors

The field of regenerative medicine is rapidly expanding, involving several clinical specialties. The great number of devices available as one-step approaches represents both a wide range of solutions and a possible source of confusion. Indeed, from blood-derived products to cell/tissue concentrates, each product has specific procedures for preparation and administration, resulting in specific characteristics. The description of these features from independent laboratories followed by a peer-review process would allow for describing the content and the potential of each product, favoring the standardization of the procedures. This would promote the informed and most appropriate application of these treatments in the clinical practice. At the same time, evidence from case series, retrospective analysis or randomized clinical trials would provide real-world and experimental data about the safety and efficacy of these approaches in different clinical settings.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
