

Special Issue

Reverse Total Shoulder Arthroplasty: Clinical Updates and Perspectives, Opportunities and Challenges

Message from the Guest Editor

The aim of this special issue is to review the literature on indication and implant specific outcome, discuss and provide evidence for the potential benefits of preoperative planning tools, to shed light on unsolved problems in RTSA, and to provide a prospect in the field of RTSA.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
