Current Trends in Urogynecology: 3rd Edition

Message from the Guest Editor

It is our pleasure to invite you to contribute to the Special Issue entitled “Current Trends in Urogynecology: 3rd Edition”. This is a new Special Issue proceeding from the 12 papers we published in the first edition. For more details, please

visit: https://www.mdpi.com/journal/jcm/special_issues/GBQ2Q56ZD4. This Special Issue of *JCM* aims to focus

on diagnostic and therapeutic modalities and risk factors, as well as on prognostic implications in patients with symptomatic pelvic organ prolapse and lower urinary tract symptoms, especially overactive bladder and various clinical types of urinary incontinence, also including modern management of urogenital fistulas.

Moreover, new methods of pelvic floor imaging will also be discussed in this Special Issue, since their implementation into clinical practice can substantially enhance our skills in the diagnosis and management of pelvic floor disorders. I am confident that this Special Issue concerning the frontiers of our specialty will keep us up to date with the latest advances in urogynecology, thanks to the contributions of renowned international experts.
