Open Questions in Aortic Disease: New Problems, New Insights

Message from the Guest Editors

Aortic disease encompasses a wide range of clinical and anatomical conditions, including aneurysm and dissection, that can have acute or chronic manifestations. Over the years, significant advancements have been made in the treatment of these pathological conditions. The introduction of endovascular surgery and its subsequent advancements have greatly enhanced patient management and treatment outcomes. However, vascular specialists now face increasingly complex pathologies that necessitate innovative approaches and state-of-the-art technologies. In this evolving landscape, it has become crucial to gather insights from global experiences in the treatment of aortic disease to ensure that optimal treatment decisions are made based on individual patient and aortic characteristics. Therefore, we cordially invite vascular experts to contribute to this Special Issue by providing original articles, case series, technical experiences, and reviews on novel treatments in the field of aortic disease. We look forward to receiving your valuable contributions to this Special Issue, which will undoubtedly contribute to our collective knowledge and ultimately benefit patients worldwide.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
