New Perspectives in Acute Coronary Syndrome

Message from the Guest Editor

We invite researchers and clinicians to contribute original research, reviews, and perspectives to our Special Issue, “New Perspectives in Acute Coronary Syndrome (ACS)”. It aims to spotlight cutting-edge advancements in understanding, diagnosing, and managing ACS. Topics of interest include innovative therapeutic strategies (i.e., stentless PCI (percutaneous transluminal coronary intervention), excimer laser, and perfusion balloon), precision medicine approaches such as antithrombotic regimens and their durations, emerging technologies in imaging and diagnostics, and the role of artificial intelligence in patient care. We also welcome studies addressing revascularization strategies such as complete versus incomplete revascularization, as well as their timing after onset, and methods focusing on PCI and CABG (Coronary Artery Bypass Grafting). By fostering interdisciplinary collaboration, this Special Issue seeks to advance the field and improve patient outcomes. Submit your work to join a global dialogue shaping the future of ACS management.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
