

Special Issue

Clinical Risks and Perinatal Outcomes in Pregnancy and Childbirth: 2nd Edition

Message from the Guest Editors

It is our pleasure to invite you to contribute to the upcoming Special Issue of Journal of Clinical Medicine, entitled “Clinical Risks and Perinatal Outcomes in Pregnancy and Childbirth: 2nd Edition”. This new edition of course follows out fir we published 19 papers in the first edition. For more details, please visit: https://www.mdpi.com/journal/jcm/special_issues/F72RCZF0A6. Pregnancy and childbirth are both situations that can bring about many changes. Pregnancy complications, including hypertensive disorders, gestational diabetes, fetal growth restriction (FGR), stillbirth and preterm delivery, are relatively common and may affect up to 25% of all pregnancies. These complications are in turn associated with both short- and long-term maternal and neonatal morbidity, including increased risk for neurodevelopmental and cardiovascular disease in the future. The goal of this Special Issue is to encourage the submission of papers on current advances in prenatal diagnosis, the screening, management, prediction and prevention of pregnancy complications and associated clinical risks, and perinatal outcomes in modern obstetrics.

Guest Editors

Prof. Dr. Apostolos Mamopoulos

Third Department of Obstetrics and Gynaecology, School of Medicine, Faculty of Health Sciences, Aristotle University of Thessaloniki, Thessaloniki, Greece

Dr. Ioannis Tsakiridis

Third Department of Obstetrics and Gynecology, Faculty of Health Sciences, School of Medicine, Aristotle University of Thessaloniki, Agiou Dimitriou, 54124 Thessaloniki, Greece

Deadline for manuscript submissions

25 July 2026

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
