Clinical Echocardiography: Advances and Practice Updates

Message from the Guest Editors

Echocardiography has long been recognized as a remarkably versatile and accurate technique that plays a central role in the diagnosis and treatment of cardiovascular disease. New technologies are constantly being developed in terms of the diagnosis and treatment of non-ischemic cardiomyopathy, diastolic dysfunction, pulmonary hypertension, coronary artery disease, heart failure, vascular disease, structural heart disease (including valvular heart disease), systemic disease, and cardiac tumors. The purpose of this Special Issue is to cover the topic of the echocardiography and cardiology of cardiovascular disease, with a particular focus on new techniques and findings. Papers submitted to this Special Issue may include reviews and research manuscripts. We believe this Special Issue is also an opportunity for surgeons, cardiologists, sonographers, researchers, and trainees to showcase their expertise in the field. We look forward to your contributions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
