New Insights into Systemic Lupus Erythematosus: From Immunopathogenesis to Treatment Strategies

Message from the Guest Editor

Systemic Lupus Erythematosus (SLE) is an autoimmune disorder characterized by profound dysregulation of the innate and adaptive immune responses with the aberrant production of proinflammatory cytokines, generation of antinuclear antibodies and multiorgan damage. SLE patients are also at a significant risk of cardiovascular complications such as accelerated atherosclerosis largely driven by immune alterations. Therefore, we are opening a Special Issue to compile the latest research in the following topics: innate and/or adaptive immune dysregulation, mechanisms leading to atherosclerosis, potential treatments/ personalized medicine, molecular and/or cellular aspects leading to SLE. Comprehensive reviews, original articles or short communications are welcome. We are looking forward to your contributions to this Special Issue.

Guest Editor

Dr. Carmelo Carmona-Rivera
National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS), Bethesda, MD, USA

Deadline for manuscript submissions

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
