

Special Issue

New Insights into Corneal Disease and Transplantation

Message from the Guest Editor

This Special Issue represents an opportunity for ophthalmologists to publish their innovative works focused on the recent advances into corneal disease and transplantation. Potential areas of interest include, but are not limited to: lamellar keratoplasty, high-tech intraoperative tools, machine learning and artificial intelligence, and novel surgical techniques. I have the pleasure to invite you to submit your work for consideration in this Special Issue entitled "New Insights into Corneal Disease and Transplantation". Original research articles (clinical research), reviews, and interesting images are welcome. All papers will be fully open access upon publication after peer review.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
