

Special Issue

Advancements in Optical Diagnostics for Head and Neck: Current Trends and Future Directions

Message from the Guest Editor

This Special Issue aims to provide a comprehensive overview of the latest developments and innovations in the field of optical diagnostics specifically applied to head and neck conditions. This issue will cover a range of optical diagnostic techniques including, but not limited to, fluorescence imaging, Raman spectroscopy, optical coherence tomography, and photoacoustic imaging. These technologies have shown significant promise in enhancing the accuracy, speed, and non-invasiveness of diagnosing various pathologies within the head and neck region.

The primary goal of this Special Issue is to bring together cutting-edge research and expert reviews that highlight the current state-of-the-art technologies and emerging advancements that are likely to shape the future of this field.

Topics of interest include but are not limited to, novel optical diagnostic methods, clinical applications, technological advancements, and integration with other diagnostic modalities. This issue will be an invaluable resource for researchers, clinicians, and industry professionals committed to improving diagnostic outcomes and patient care in head and neck medicine.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
