

Special Issue

Clinical Diagnosis, Treatment and Comorbidities of Ankylosing Spondylitis and Spondyloarthritis

Message from the Guest Editors

The Special Issue "*Clinical Diagnosis, Treatment and Comorbidities of Ankylosing Spondylitis and Spondyloarthritis*" delves into pivotal facets surrounding ankylosing spondylitis (AS), expertly curated and edited by distinguished specialists. Focusing on early diagnosis, the issue offers insights into the challenge of identifying AS in its initial stages and the impact on disease progression. Delving deeper into the pathology, it explores the intricate role of enthesitis and enthesopathy, unravelling their significance in disease development. The issue emphasises the prevention of psoriatic arthritis, aiming to elucidate novel preventive measures and therapeutic strategies. Moreover, it sheds light on new bone formation, exploring innovative approaches to inhibit and manage this detrimental aspect of this disease. Addressing the multifaceted nature of AS, we aspire to provide a comprehensive understanding of associated comorbidities, offering clinicians and researchers a deeper understanding of this complex rheumatic condition.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
